Have medical conditions that might put them at risk
27

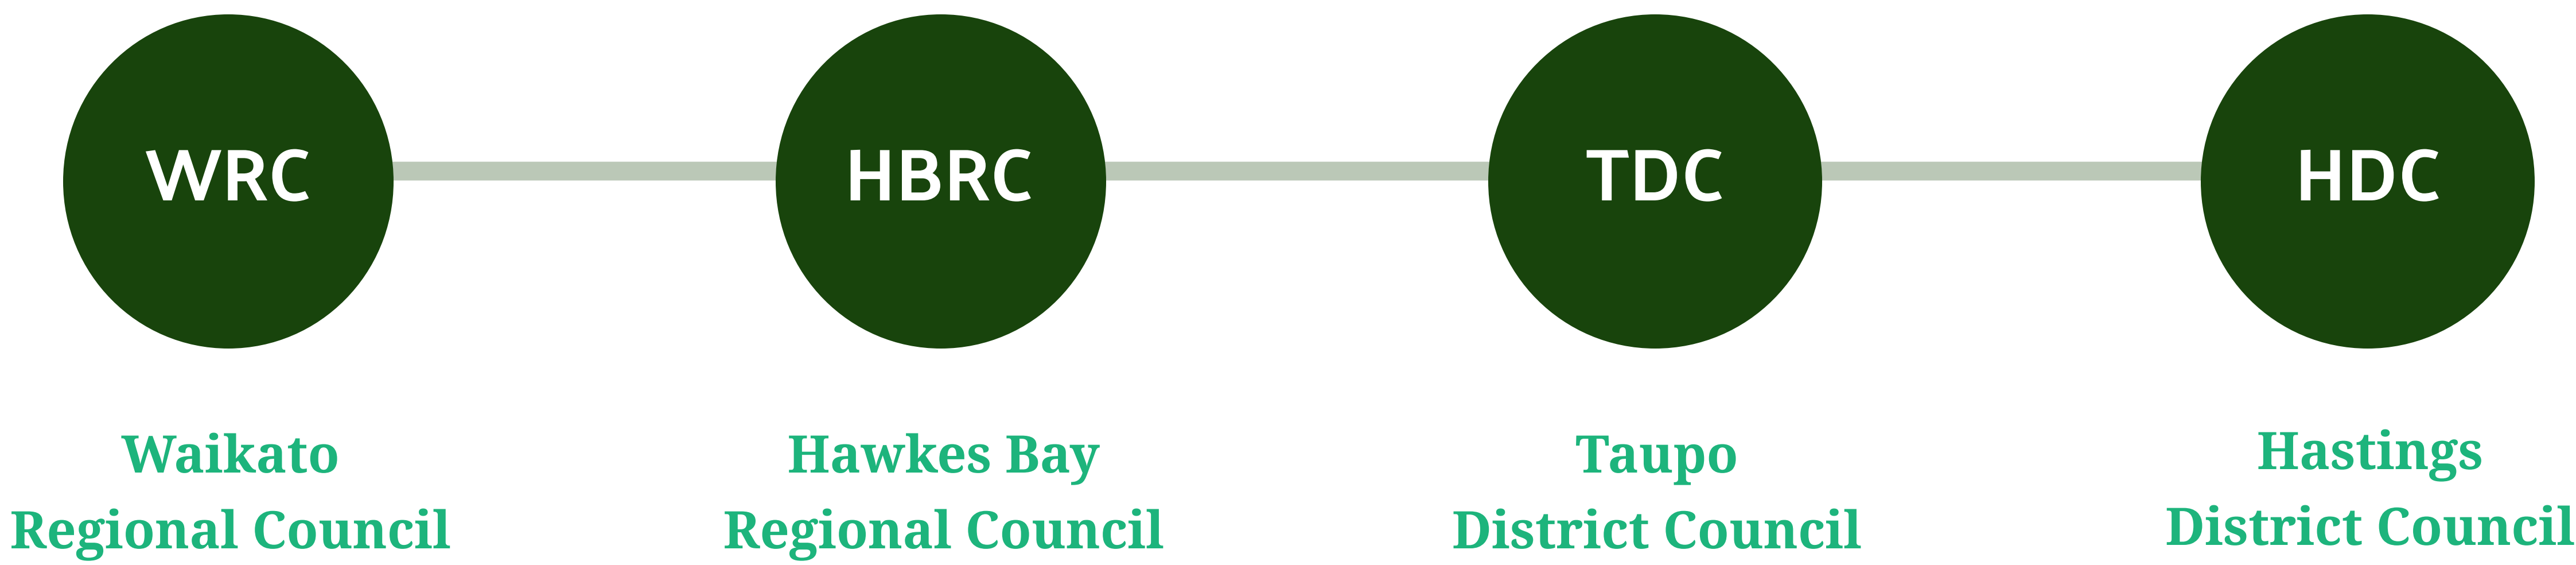

Pūaroa

Kua hinga tetahi o tatau ki COVID19, ko Janet Lieben ki Ahitireiria no te whanau Utiera ki Te Haroto.

E te mareikura haere ki o matua tipuna, moe mai ra.
Sadly, one of our members passed away 31 March 2020 in Australia - Janet Lieben from the Utiera whanau in Te Haroto. She was travelling with her husband Jerry on the Ruby Princess Cruise Ship as a part of the Air Dispatch Assoc of Australia International Reunion when she contracted COVID19. Her husband is currently very sick with the virus. Our thoughts are with you & your whanau.

Anecdotal Information

- One kuia in Bulls didn't know there was a lock down until we explained it to her. She had leaky leg syndrome and said *"I can go to the chemist on my electric wheelchair, I'll be ok"*.
- The oldest person we have telephoned so far was 91yrs old living in Turangi. *I korero Maori tenei kuia i te reo Maori.*
- Most were thankful for the phone contact and were happy to receive follow up phone calls.
- We have received a few complimentary messages of thanks for the contact made.
- One of the highlights was facilitating a replacement hot water cylinder for a pakeke through the Ministry of Social Development, three days after phone contact.
- Great sharing & networking within and across the motu by Iwi to get much needed help & assistance to our kuru pounamu

Compliments

1. From Damien Sullivan

2. **Message**

just a big thanks for the Kai we really needed it, and big thanks to all the people helping this was a big surprise for our family and the kids are so pleased and nana is very humbled to know someone's thinking of her in her position .great work thanks from our hearts, The. Sullivan family
